E-Safety

Dear Parents and carers,

As children are now regularly accessing online content from an early age, it is extremely important that we teach them how to be 'e-safe'. Our children are exposed to technology and the internet on a daily basis, both at home and at school, so it is vital that we work together to give them clear and concise guidance.

To help achieve this aim, we have funded resources from National Online Safety for both staff and parents. Once you have submitted your email address, and followed the emailed link, you will be able to access an informative course and 50+ parent guides for apps. Each guide explains what the app is about, outlines any potential safety risks for children, as well as financial risks to you and how to change hidden settings to keep our children safe.

On our website, we have shared a link to the National Online Safety website under the Parents tab. Alternatively, please follow <https://lms.nationalonlinesafety.com/school/AcklamWhin>

If you have any problems or feedback, please speak to your child's class teacher.

Thank you for your continued support.

Miss L Davies
(Creative Digital Lead)
