

Appendix: Maintaining our Foundations of Behaviour during the Coronavirus Pandemic.

The following behaviour expectations have been drawn up with reference to DfE advice and guidance. They are designed to enable our school community to continue to show respect for each other, behave in a responsible manner and so keep themselves and others safe.

At Acklam Whin we will:

- Enter and leave school via the allocated doors at the allocated times.
- Wash our hands regularly when reminded by an adult.
- Always wash our hands before and after outdoor breaks, before eating and after every visit to the toilet.
- Remain within our groupings at all times, including on the playground.
- Play only where directed to by an adult.
- Only touch our own packed lunch boxes, water bottles and school equipment and no one else's.
- Cover our mouths with a tissue if we need to cough or sneeze, then immediately put the tissue in the bin and wash our hands or use hand sanitiser.
- If no tissue is available, cough or sneeze into the crook of our elbow then wash our hands or use hand sanitiser.
- Never cough or spit directly towards another person.
- Report to an adult if we feel unwell.

All children and staff will continue to follow our procedures for safe use of online materials both within school and when learning or teaching at home.

Any child who knowingly puts him/herself, other children or staff at risk will be immediately excluded until guarantees are met regarding his/her behaviour.
